This is a unique opportunity for FJ to continue his studies and refine his skills in making traditional Yixing Teapots. His teachers believe he has the talent to accomplish this goal.

\$2025
(full amount donated)

This young man and his foster father have been working hard to find a school opportunity to take advantage of his artistic talent. They were inspired by the pottery work and training of the older FJ and this young man has now been accepted at the same pottery school.
